

Dreambox can help students avoid the “summer slide”

During the summer months, students lose some of the skills they acquired during the school year. **Using Dreambox regularly during the summer** will not only prevent skill loss, but it can actually **improve student skills in mathematics!**

It's Easy to Access Dreambox This Summer:

1. Go to <https://clever.com/in/ccps21>
2. Bookmark the site for easy access
3. Click on the Clever Login box
4. Use your 5-digit lunchcode for the username and your 8-digit birthday as the password (mmddyyyy)

By using this process, you will not need to know your school's access code. **If you prefer to access Dreambox via the app, be sure to install BOTH the blue and the green icons** – you can use either the blue or green to access the Dreambox site.

TIP: We naturally want to help our children when they struggle with a challenging lessons. However, because DreamBox constantly assesses to determine gaps in understanding, helping can sometimes move your child beyond his/her optimal learning zone and lead to frustration. For this reason, the best ways to help your child are to encourage them to try their best, coach them if they are working inefficiently, and continue to explore math together in their daily life.
